NEW PRODUCT ANNOUNCEMENT

Dear CTI Customer,

CTI is pleased to announce the release of the 2556-A 16-Channel Isolated Thermocouple Input Module for 2500 Series® Classic I/O. The 2556-A replaces the older 2556 and uses a removeable field wiring connector – the same as used by the 2559-TC 8-Channel Thermocouple Input Module. This new connector (2559-FPC, ordered separately) makes module swaps easy, since it can be simply unplugged from the old module and plugged onto the new one.

For more information about 2500 Series® products, visit our website:
