PRODUCT MATURITY ANNOUNCEMENT

Dear CTI Customer,

CTI announces maturity of the 2590-EF and 2591-EF AC and DC output modules with external fuses. These modules are rarely used, as most installation elect to fuse the field devices elsewhere in the control panel. The standard 2590-A and 2591-A modules can be used as replacements. These modules are internally fused, rather than externally fused.

We will accept orders for last-time buys until February 28, 2020. After that time, the product will no longer be manufactured, but we will continue to provide support and repairs, subject to availability of parts.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck
Senior Vice President
Control Technology Inc.
