PRODUCT MATURITY ANNOUNCEMENT: 2551-A, 2552-A

Dear CTI Customer,

CTI announces the maturity of the 2551-A 16-Channel Isolated Thermocouple Input and 2552-A 16-Channel Isolated RTD modules.

These products are 2002-era designs with many components that are no longer available. We have built a small production of these units based on the demand from recent years, and availability is limited to remaining stock. The functions of the products have been replicated on our newer 2559-TC, 2559-RTD, 2556-A and 2557-A modules. In addition, these replacement products all employ removeable field wiring connectors, enabling quick replacement of modules.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck
Senior Vice President
Control Technology Inc.
