PRODUCT MATURITY ANNOUNCEMENT

Dear CTI Customer,

CTI announces maturity of the 2576 DeviceNet Scanner Module. The aging DeviceNet technology from Rockwell is rarely used now – replaced by more common and less expensive communications technologies like Ethernet/IP and Modbus-Ethernet.

We will accept orders for last-time buys until February 28, 2020. After that time, the product will no longer be manufactured, but we will continue to provide support and repairs, subject to availability of parts.

If you have questions about this maturity announcement, please contact CTI or your CTI Preferred Automation Partner.

Regards,

Robert Peck
Senior Vice President
Control Technology Inc.
